

AI–Policy for the RSM Austria Website

1. Use of Artificial Intelligence at RSM Austria

Artificial intelligence (AI) is an integral part of modern work processes and helps RSM Austria deliver our services efficiently and to a high standard. We use AI strategically to improve workflows, support analyses, and create added value for our clients—always in accordance with strict quality and compliance standards.

2. AI as a support tool

At RSM, AI systems are used exclusively for support purposes. The professional assessment and decision–making always remain the responsibility of our experts. All AI–generated content is reviewed, evaluated, and used only if it is factually accurate and appropriate.

3. Quality assurance through human oversight

We ensure that no AI–generated output is used without being reviewed. Every piece of work is reviewed by qualified specialists (dual–review principle), during which errors, omissions, and potential biases are critically analyzed. The final responsibility always lies with our employees.

4. Data Protection, Confidentiality, and Security

The protection of client and personal data is our top priority. We use only AI systems that have been tested and approved. Confidential information is processed exclusively in secure systems. Data processing is carried out in accordance with the GDPR and in compliance with professional confidentiality obligations.

5. Transparency

We are committed to transparency in our use of AI. Upon request, we will provide information about how AI is used in the engagement.

6. Compliance with Legal Requirements

The use of AI is in compliance with the EU AI Act, the GDPR, and professional regulations. Internal guidelines, training, and governance structures ensure its responsible use.

7. The Limits of AI

In some cases, AI systems may produce incomplete or incorrect results or misinterpret content. For this reason, our experts always conduct a professional review.

8. Contact

If you have any questions about the use of artificial intelligence, please feel free to contact us at any time:

RSM Austria Gruppe¹
Tegetthoffstrasse 7, 1010 Wien
