## **COMMITMENT TO IMPARTIALITY**

RSM Paris, a COFRAC-accredited independent third-party organisation (Cofrac Validation/Verification accreditation no. 3-1861, scope available at [www.cofrac.fr](http://www.cofrac.fr)), recognises the critical importance of independence, impartiality, and confidentiality in the execution of its validation and verification activities.

While its decisions may have significant consequences for its clients, RSM Paris positions itself as an impartial and independent partner, committed to delivering services that are free from any conflict of interest or risk of collusion. To this end, prior to each engagement, a systematic process is implemented to identify, analyse, and manage any potential risks to impartiality or conflicts of interest, in strict accordance with the ISO 17029 standard.

Certification decisions are made in line with RSM Paris's quality management system and are always based on documented evidence. These decisions are taken by individuals or committees who have had no involvement in the audits or assessments concerned.

RSM Paris is fully committed to upholding this policy and ensuring that all personnel involved in accredited activities adhere to it at all times.
