Newsflash: Secondary Adjustments in Transfer Pricing

CBDT notification 52/2017

THE POWER OF BEING UNDERSTOOD

1.0 Introduction to Secondary Adjustment

In order to align the transfer pricing provisions with OECD Transfer Pricing Guidelines and International best practices, a new section **92CE** was introduced in the Income Tax Act, 1961.

“Secondary Adjustment” means an adjustment in the books of account of the assessee and its associated enterprise to reflect that the actual allocation of profits between the assessee and its associated enterprise are consistent with the transfer price determined as a result of primary adjustments, thereby removing the imbalance between cash account and actual profit of the assessee.

"Primary adjustment" to a transfer price, means the determination of transfer price in accordance with the arm's length principle resulting in an increase in the total income or reduction in the loss, as the case may be, of the assessee;

Where as a result of primary adjustment to the transfer price, there is an increase in total income or reduction in loss, as the case may be, of the assessee, the excess money which is available with its AE, if not repatriated to India on or before 90 days (*refer pt. 2.0 below*) shall be deemed to be an advance made by the assessee to such AE and the interest on such advance shall be computed. (*refer pt. 2.0 below*)

The provision shall be applicable to primary adjustments exceeding Rs. 1 crore made in respect of the assessment year 2017-18 and onwards.

2.0 Time limit for repatriation and interest rate applicable on excess money
