Driving Operational Efficiency Key to Survival & Growth

We are in the midst of unprecedented opportunities and challenges. The commodity prices are showing wide fluctuations, global supply chains are undergoing disruptions and technology and automation are resulting in greater efficiencies.

As a business organisation, you may have the opportunity to optimise your revenue and bring down your costs by at least 1% to 3% of your revenue and costs by a structured objective rigorous review and increase operations efficiency. Certain key drivers for this exercise are:

- 1. Revenue Optimization:** Review your products' current pricing, products mix, new markets, new geographies, free trade agreements, digital sales channels, etc.
- 2. Review procurement costs:** The material costs for most manufacturing companies could range from 30% to 60% of total costs. The extreme price fluctuations, efficient procurement management and use of technology can result in substantial cost savings. This could include Spend reduction through pricing, vendor management, substituting local procurement with imports and vice versa, e-procurement and e-tendering, long term agreements vs. spot buying, bulk discounts and so on.

3. Review Logistics and Distribution

Costs: The logistics and distribution costs for most manufacturing organizations range from 10% to 30% of the total costs. The review of inbound and outbound freight and warehousing operations, export and import management (goods movement), selection of proper mode of transport, selection of proper fleet for transport, logistics partners, secondary/last mile distribution of goods to end customer and related costs, impact on inventory and so can result in significant cost savings and operational efficiency.

4. Leveraging Technology and Automation:

The use of BOTs for automating repetitive processes, data analytics to gain insights, ROBOTs for substitution of manual tasks, digital marketing, e-sales channels and so on has presented unimaginable opportunities for driving down costs and improving operations.

RSM India's Operations Consulting Group has a team of over 300 Engineers and MBAs to assist businesses in "Driving Operational Efficiency". Its team, with both consulting and industry experience, along with technology professionals, works closely with the clients in each of the above areas of revenue optimisation, procurement costs and logistics costs, and leveraging technology and automation, to

identify areas for tangible improvements. RSM India, the sole Indian member of RSM International, with a team of over 2,100 personnel in India, has been ranked as one of the top 6 accounting, tax and consulting firms in India (International Accounting Bulletins, 2011- 2020). The group has nationwide presence through offices across 11 key cities in India viz. Mumbai, New Delhi-NCR, Chennai,

Kolkata, Bengaluru, Surat, Hyderabad, Ahmedabad, Pune, Gandhidham and Jaipur. RSM International has 48,000 personnel in 120 countries, with annual combined fee income of US\$ 6.3 billion (Rs.46,000 crores). Founded by Dr. Suresh Surana, RSM India is a home-grown organization with access to world-class capabilities.

SPEECHES

Rajeshwar Rao: Ownership and Governance – Building the Edifice for Digital Innovations

Remarks by Shri Rajeshwar Rao, Deputy Governor of the Reserve Bank of India
Mint Annual Banking Conclave, Mumbai, 15 December 2021

The technological and digital innovations have improved the efficiency, productivity, and competitiveness in the delivery of financial services. Their role in furthering the financial inclusion and reducing the cost of financial intermediation is well recognised. However, such innovations have also given rise to newer challenges for all stakeholders. While customers face issues of mis selling, data security and privacy as well as identity theft problems, regulators and supervisors need to increasingly engage with issues around customer protection, ethical conduct, regulatory arbitrage, and concerns about financial stability.

Licensing and ownership of private banks in India

It is generally accepted that a deep, stable, and sound financial system contributes to economic growth. But for growth to be truly inclusive, broadening and deepening the reach of formal finance is a pre-requisite. Access to formal finance is especially critical for the lower income groups as it provides them with the opportunities to save, invest, avail of credit, and grow their incomes through productive enterprises and activities.

Importance of Governance in Financial Institutions

A sound, efficient and robust financial intermediation structure facilitates optimal allocation of financial resources in the economy.

For this, the trust of all stakeholders, especially of depositors in case of banks, is a pre-requisite. While legal and regulatory architectures provide a broad framework to maintain this trust, the trust needs to be grounded in good governance and ethical conduct of the institutions and their functionaries. The banks tend to be well regulated and are intensively supervised but any erosion of public trust in financial institutions cannot be countered with regulatory prescriptions or supervisory rigours alone.

Conclusion

As we collectively aspire for an efficient financial intermediation with positive spill over to the real sectors, we need to remind ourselves that these aspirations are set in an increasingly competitive, diverse, interconnected and market driven ecosystem. It is important in this context to gain and retain the trust of other stakeholders such as depositors and various providers of financial resources. This is best ensured by the governance, control, and assurance functions in financial institutions. Governance frameworks can be pictured of as a complex mesh of nuts and bolts holding the financial pillars of capital, assets, deposits, and investments in place and keeping the structure of the bank upright. As we strive to recover from the pandemic, financial institutions will need extraordinary amounts of financial resources to support growth to realise our visions for a brighter tomorrow.

Governance and Prudential Supervision of Financial Institutions: Recent Initiatives

Address by Shri M K Jain, Deputy Governor, Reserve Bank of India
November 2, 2021, Business Standard BFSI Summit

The Reserve Bank's regulatory and supervisory approach has largely been driven by ownership neutral approach with focus on ensuring financial stability and resilience of its financial entities. Banking practices evolved rapidly post liberalisation. The ever changing financial landscape of the country and advent of Information Technology posed newer challenges for the banks as well as its regulator and supervisor. Banks being the engine of growth for the Indian economy, quickly adopted to this new reality of competitive environment and resorted to various new practices to maintain their bottom line. The adoption of new business models without adequate risk management and weakness in internal controls at times resulted in weak underwriting standards.

Governance

Corporate Governance is the corner stone for any enterprise, but for banks, it assumes a distinctly different undertone and importance. It is well-known that banks are special in terms of services they render and the segments they touch while rendering these functions. By providing financial intermediation and maturity transformation, payment and settlement services, reducing information asymmetries, and engaging in deposit mobilisation, banks act as catalysts in growth of the economy. Most importantly, they enjoy the privilege of

mobilizing uncollateralized public deposits and operating with high levels of leverage. The negative externalities of banks and NBFCs are also much higher than those for any non-financial entity due to their inter-connectedness.

Supervisory Initiatives

Improving the governance practices and internal defenses in supervised entities, including an assessment of business model adopted. Identifying early warning signals, increasing the focus on root cause of vulnerabilities and initiating corrective actions, as also refining supervisory processes and communications. In order to ensure a unified and systemic approach, a unified Department of Supervision (DoS) was created bringing all SEs, namely, Scheduled Commercial Banks, NBFCs and UCBs under one umbrella. Unifying the supervisory functions shall reduce the supervisory arbitrage and information asymmetries across SEs and address the complexities arising from their inter-connectedness

Conclusion

Globally, banking is seeing rapid transformations and questions on the traditional bank model are being raised. Technology players are challenging banks with offerings which provide more convenience, better reach and lower cost to customers. Developments in

AI/ML, robotics and chat advisory, digitalisation, Distributed Ledger Technology (DLT), quant computing, cloud arrangements, data analytics, new ways of remote working, etc are giving benefits but also generating new risks. Climate change, KYC / AML, cyber security, virtual currencies as well as increasing reliance on outsourcing are some of the other major challenges that will need to be addressed.

Agile and creative thinking is going to be essential in staying ahead of the digital curve when it comes to the evolution of financial services. Financial institutions would need to experiment with new technologies and tailor their products and services in alignment with business strategy and competitive

considerations as well as in compliance with existing laws and regulations. Leveraging on technology will also require enhanced financial investments, building expertise and capacities, proper resource allocation and further strengthening of the operational capabilities.

Lastly, in this ever evolving and challenging environment, ultimately it is the operations of a financial entity in terms of its governance standards, business model, risk culture, and assurance functions that will decide how well it fares in the long run. Reserve Bank would expect all its supervised entities to give due weightage and consideration to these elements.

BANKING, FINANCIAL SERVICES & INSURANCE (BFSI) ACTIVITIES IN THE MONTH

ASSOCHAM - EGROW Shadow Monetary Policy Committee

“Discussion on Monetary Policy” Thursday, 02nd December 2021 (04:00 PM – 05:00 PM)

Eminent Panellists

- Dr. Arvind Virmani, Former Chief Economic Advisor, Government of India & Chairman, EGROW Foundation
- Dr Charan Singh, Chairman, National Council for banking
- Shri S.C Aggarwal, Chairman & Managing Director, SMC Group
- Shri Ashish Jain, CFO, Loantap Financial Technologies
- Shri Indranil Sen gupta, Head of Research, CLSA India
- Shri Abheek Barua, Chief Economist and Executive Vice President HDFC Bank
- Ms. Upasna Bhardwaj, Senior Economist & Senior Vice – President , Kotak Mahindra Bank
- Shri Siddharth Sanyal, Chief Economist & Head of research, Bandhan Bank
- Robust GST collection of Rs.1,30,000 crore in November is healthy sign
- India’s merchants’ exports are performing well.
- India’s focus for the medium term would be to reiterate jobs and trade
- Inflationary pressures are persisting
- Build up of reserves helps to stabilize INR
- Omicron has raised downside risk to global GDP.
- Given the previous problems of virus, we can expect a lower global demand which can lead to supply demand shift.
- Informal sector needs to be looked at comprises of wages and income recovery. Very strangely rural wages have gone down.
- CMI data is related to migrant workers moving back to their workplace.
- Government should ensure there is place for modern MSMEs.

Key Takeaway’s

- Indian economy is on path to achieve double digit GDP growth in FY22
- Q2 GDP data and IIP suggest that recovery level is strong
- MPC should be accommodative to neutral stance.

ASSOCHAM 8th National E-Summit on Non-Banking Finance companies & Infrastructure Financing “Transforming the Financial Lending landscape”
Thursday, 23rd December 2021 from 11:00 AM – 02:00 PM

Eminent Panellists

- Shri Jayant Sinha, Hon’ble Member, Parliament & Chairperson, Parliamentary Standing committee for Finance
- Shri S Ramann, CMD, Small Industries Development Bank of India
- Shri Ajit Pai, Distinguished Expert-Economics & Finance, NITI Aayog
- Shri Ashok Soni, ED, Pension Fund Regulatory and Development Authority
- Shri Ramesh Iyer, Chairman, ASSOCHAM National Council for NBFCs & Infrastructure financing, Vice-Chairman & MD, Mahindra & Mahindra Financial services limited
- Shri Phani Shankar S., President & Co Head, Treasury & Global Markets; Kotak Mahindra Bank
- Shri Krishnan Sitaraman, Sr. Director & Deputy Chief Ratings officer
- Shri Basudev Mukherjee, Assistant Secretary General, ASSOCHAM
- Shri Alexander Muthoot, MD, The Muthoot Group
- Shri Amit Gaiinda, CEO, Avanse Financial Services ltd
- Shri Amit Gupta, CFO UGRO Capital
- Ms. Hardika Shah, Founder & CEO; Kinara Capital
- Shri Ketan Doshi, MD, Pay Point India Network Pvt. Ltd.
- Shri Rajkumar Muthukumar, Chief Risk Officer, Orange Retail Finance Private limited

- Shri T. Bijoy Idicheriah, Deputy Editor; Informist Media Pvt. Ltd.
- Shri S.C Aggarwal, Member, ASSOCHAM & CMD, SMC Group
- Shri Sumit Mehrotra, Head – Supply Chain Finance; ICICI Bank
- Shri Umesh Revankar, Co-Chairman, ASSOCHAM National Council for NBFCs & Infrastructure financing, Vice-Chairman & MD; Shriram Transport Finance Company limited
- Shri Vijay Deshwal, Group chief Executive officer, Poonawala Fincorp Ltd.
- Shri Sanjay Rudra, General Manager, Large & Mid-Corporates; Bank of Maharashtra
- Shri Samik Dasgupta, General Manager & HOD, NPA Management and Legal; IIFCL
- Shri M. Narendra, Former CMD; Indian Overseas Bank

Key Takeaway's

Shri Jayant Sinha

- The government is working to bring changes in the GST Act and other public platforms so that companies can utilize data to grow big in size and scale.
- The target is for a \$10 trillion economy, we need to build an Atmanirbhar economy where we control our own destiny.
- "For \$10 trillion economy, we need to have an economy that is, at the competitive frontier, as competitive and capable in its ability to deliver products and services both to domestic as well as export market. We need to improve the financial system that we have today, the nature of credit flow if we are to take \$10 trillion or global competitiveness as the benchmark.
- Based on various operational parameters, the trajectory we are on right now is not one that will lead to a globally competitive \$10 trillion economy. To be on the right trajectory, we must use technology. We have made giant strides in the last few years, and we need to build on that.
- Public platforms and private innovations with appropriate regulatory and policy interventions as required has enabled us to achieve incredibly terrific things such as the roll out of UPI. Aadhar is now the largest biometric based identification system. We've got digital identities and digital payments worked out. As we move forward, we have to do more in terms of public platforms".
- When the Factoring Bill came to the Standing Committee on Finance, the government was opening up factoring to more non-banking financial companies and enabling more NBFCs to participate in that.
- "But even as we were doing that we were not addressing some important platform and data related issues. That is why we suggested that anything that is on GST as an invoice should automatically be gone to TReDS as well. Then it can be used on TReDS to finance receivables and so on. "So, that was the recommendation of the committee, and I am very happy to tell you it was accepted by the government,"

- However, he said, any change will need statutory backing through legislation, as the GSTN (GST Network) does not enable the usage of data within GSTN for any other purpose.
- So, there is a need to change not only the central GST Act but all the state GSTN Acts to enable GSTN invoices to automatically get on to TReDS or other platforms.
- TReDS is a platform that facilitates discounting of invoices for MSMEs from corporate buyers through multiple financiers.
- For India to leapfrog and become a globally competitive economy of the size of USD 10 trillion, public platforms, as well as private innovation, need to work in tandem.
- While making public platforms frictionless is 10 per cent of the story, 90 per cent of the story lies with the private players and businesses to innovate.
- “So, those are the kind of things we are working on right now, and there is a report that we will be putting out on strengthening credit flow to MSMEs, and we would welcome input from NBFCs on that..
- “Private sector innovation is required on top of these public platforms. The good news today is that there is ample capital available. Because of the great exits and tremendous capital that we have in the market right now, there is plenty of capital available to support high-quality businesses”.

**ASSOCHAM – PFRDA Webinar On National Pension System (NPS)
for Corporates “Securing Future with NPS & Insights For Employer”
Tuesday, 28th December 2021 from 03:00 PM – 05:00 PM**

Eminent Panellists

- Ms. Nipa Sheth, Chairperson, ASSOCHAM National Council for Corporate Bond Market and Founder & MD, Trust Group.
- Shri Supratim Bandyopadhyay, Hon'ble Chairman, Pension Fund Regulatory and Development Authority (PFRDA).
- Shri Suranjan Banerjee, Associate Director-Retirement, Willis Tower Watson.
- Shri Mono Phukon, Chief General Manager, Pension Fund Regulatory and Development Authority (PFRDA).
- Ms. Smita Parulkar, Partner- Tax, Global Business Tax.

Key takeaway's

Shri Supratim Bandyopadhyay

- Population of country is increasing with its age as well.
- Medical facility as well has increased a lot due to which people are having higher age limit. In current times, after a certain period we are getting a pay scale for our work.
- Post 60 most of our expenses are medical, which is quite high and unavoidable.
- Old age population is increasing and without proper financial planning it will be very difficult to survive.
- Government schemes cover only fragment of population so it is high time that all of us should start planning for our retirement.
- There are insurance schemes and pension schemes along with NPS under PFRDA which helps in this process.
- Atal Pension Yojana provides pension between Rs. 1,000/- to Rs. 5,000/- which can benefit you at age of 60 years.
- As per recent information total pension base of Rs. 33 trillion which is 14-15% of GDP.
- Unless we make it, mandatory people try to push it back under the impression that we are quite young and there is no need for such planning.
- Informal support system which comes through joint family system has crumbled.
- We need to start early and as our cash flow increases, we should set aside a set amount for retirement.
- One must think of the inflation rate and tax bracket while calculating their retirement.
- More than 9600 corporates have registered under PFS.
- Since old pension scheme has abolished, banks are participating in it largely.
- Earlier it was 10% now IBA has passed resolution to make it 14% of employee's salary and 10% will be made from employee side as well.

- Not all corporate not under provident fund as one of the options, similarly it should give NPS as an option as well.
- We have covered a lot of corporate, but we do not have depth for which corporate needs to handhold their employees for showing it as an option.
- Onboarding process is majorly physical but still around 40% is done under the digital platform.
- Any person who is investing under NPS can go upto 70 years with an option to start withdrawal option at the age of 60 years.
- For last two years we are seeing the impact of pandemic, but our sector was not affected. Lowest growth rate was 10% during pandemic. It shows some sort of awareness being created in the market.

TOP BANKING NEWS

- **Create UPI like platform for credit: Ashwini Vaishnaw to banks**

With the aim of addressing the needs of the bottom of the pyramid, union minister for electronics and IT, Ashwini Vaishnaw asked financial services firms and banks to create a UPI like platform for providing quick and easy credit to small and medium enterprise, industries and small businessmen. Speaking at the concluding day of the week-long AzadiKaAmritMahotsav organised by the ministry of electronics and IT, Vaishnaw said that firms have instruments such as Aadhaar, UPI, mobile, digiLocker etc at their disposal, and they should come up with proof of concepts in the next three months.

Source: https://economictimes.indiatimes.com/industry/banking/finance/banking/create-upi-like-platform-for-credit-ashwini-vaishnaw-to-banks/articleshow/88106965.cms?utm_source=contentofinterest&utm_medium=text&utm_campaign=cppst

- **SBI Chairman says consolidation of PSU banks is good for the banking industry**

Consolidation among public sector banks (PSBs) is good for the banking industry as it will ensure that consortiums lending to projects are not too big and there is optimum utilisation of capital, according to State Bank of India Chairman Dinesh Kumar Khara. According to the Business Line; among banks to operate in all the niche segments, Khara said small size banks may not have the ability to absorb losses that might come up.

Source: <https://www.thehindubusinessline.com/money-and-banking/consolidation-is-good-for-the-banking-industry-sbi-chairman/article37857497.ece>

- **Asset Monetization Expected to be a Key Theme Of Budget 2022-23**

According to Hon'ble Finance minister Nirmala Sitharaman a Rs 6-lakh crore National Monetisation Pipeline (NMP) that would look to unlock value in infrastructure assets across sectors ranging from power to road and railways. In addition to that asset monetisation would not involve the selling of land and would entail monetising brownfield assets. Projects have been identified across sectors, with roads, railways and power being the top segments. In the upcoming budget, the government is looking to fix targets for achieving the monetization programme, as it does for tax and divestment targets.

- **Paytm Payments Bank gets scheduled bank status from RBI**

Paytm Payments Bank Limited (PPBL), an associate entity of Paytm, has gained the central bank's approval to function as a scheduled payments bank, it announced on Thursday, December 14, 2021, helping it to widen its financial services operations. Paytm Payments Bank, a niche bank that cannot lend on its own, can now explore new business opportunities. It had over 6.4 crore savings accounts and more than ₹5,200 crore deposits, including savings accounts, current accounts and fixed deposits with partner banks at the end of March this year.

Source: <https://www.livemint.com/industry/banking/paytm-payments-bank-gets-scheduled-bank-status-from-rbi-11639045475568.html>

- **Banking: The impossible trinity of India's banking policy**

Last November, a storm brewed in stock markets over an RBI Internal Working Group (IWG) report, constituted to review the ownership structure of Indian Private Sector Banks. The storm was due to one IWG recommendation that the RBI could consider allowing large corporates/industrial houses to become promoters of private banks.

Source: <https://www.moneycontrol.com/news/opinion/banking-the-impossible-trinity-of-indias-banking-policy-7808161.html>

- **To save banks, we have to protect depositors: PM Modi**

According to Hon'ble Prime Minister Shri Narendra Modi, the move to increase deposit insurance cover to ₹5 lakhs from ₹1 lakh, will fully insure ₹76 lakh crore of savings. "Such a comprehensive insurance cover is not there even in developed nations,". "This will cover almost 98% of all banking accounts."

Source: <https://www.thehindu.com/business/Economy/to-save-banks-we-have-to-protect-depositors-pm-modi/article37938000.ece>

- **RBI Governor, PM signal reforms in trouble-prone urban co-operative banks**

According to Reserve Bank of India (RBI) Governor Shaktikanta Das, indicated that the banking regulator will ring in sweeping regulatory changes to reform urban co-operative banks that have been plagued by a spate of failures, and warned people against parking their savings in banks offering high returns. While terming the government's decision to raise the insured limit for bank deposits to ₹5 lakh from ₹1 lakh with a 90-day time limit to pay out such deposits as 'landmark' developments.

Source: <https://www.thehindu.com/news/national/rbi-governor-pm-signal-reforms-in-trouble-prone-urban-co-operative-banks/article37940271.ece>

- **India's Banking Revolution Has Started Without the Banks**

No deposit-taking institution in the world is trusted more by savers and enjoys bigger cachet with investors than HDFC Bank Ltd. What this plenitude has done to

India's most valuable lender is make it so lethargic – literally, with its digital services suffering repeated tech outages – that it had to be banned from issuing new credit cards for eight months. But a regulatory slap on the wrist is no durable solution. Bank licenses are permits to make money out of thin air.

Source: <https://www.bloombergquint.com/opinion/fintech-is-leading-india-s-banking-revolution-but-it-s-hampered-by-old-rules>

- **Depositors should be careful while chasing high returns: RBI Governor Shaktikanta Das**

According to Reserve Bank of India (RBI) Governor Shaktikanta Das, cautioned depositors to be careful while chasing high returns as it comes with greater risk. Observing that depositors themselves also need to be very discerning, he said it is important to keep in mind that higher returns or higher interest rates are usually associated with higher risks.

Source: <https://www.financialexpress.com/industry/banking-finance/depositors-should-be-careful-while-chasing-high-returns-rbi-governor-shaktikanta-das/2387017/>

- **Cabinet committee on privatisation yet to take decision on two banks: FM**

According to the Hon'ble Finance Minister Nirmala Sitharaman, the cabinet committee on privatisation is yet to take a decision with regard to divesting two public sector banks. The government had in Budget 2021-22 announced its intent to take up privatisation of two public sector banks (PSBs) during the year and approval of a policy of strategic

disinvestment of public sector enterprises, she said in the Lok Sabha.

Source: https://www.business-standard.com/article/finance/cabinet-committee-on-privatisation-yet-to-take-decision-on-two-banks-fm-121121301366_1.html

- **Private bank branches bloom as PSBs throttle back**

India's private banks are rushing in to fill the void left by the shrinking branch network of state-owned banks that had to rationalize presence and avoid overlaps caused by a spate of mergers. Public sector banks saw branch network start to decline after peaking in March quarter of 2017

Source: <https://www.livemint.com/industry/banking/new-pvt-bank-branches-close-void-left-by-shrinking-psb-net-11639419383435.html>

- **Power ministry tells banks to be cautious when lending to discoms**

The power ministry has urged banks to exercise caution while giving loans to state power distribution utilities to avoid putting the financial system at risk. This is the first time that the Centre has warned banks, expressing concern about the financial position of distribution companies and potential adverse impact on the banking system.

- **Axis Bank likely to bag Citi's India retail business**

Axis Bank has emerged as the top contender to acquire Citibank India's retail assets, three people with knowledge of the matter told CNBC-TV18 on the condition of anonymity as the deal has not been made public yet. The deal could be an all-cash transaction, with a valuation of around \$2 billion including incentives, as per people in the know. Axis Bank is likely to sign an exclusivity agreement with Citi for the deal very soon. Kotak Mahindra Bank and IndusInd Bank were the other two players who had been in the race to acquire Citi's India retail business, but Axis Bank emerged as the top contender.

- **'Connected ecosystem banking will emerge soon'**

Banks are gradually moving towards platforms and application programming interface (API)-led ecosystems to build innovative business models. Amid the rapid digital transformation, regulations and

compliance norms set by the government will define how banking evolves. According to Biswabrata Chakravorty, head, IT, IndusInd Bank, spoke about how the private sector lender has created differentiated customer experience offerings through APIs.

- **Technology is causing disruptions in banking, says K V Kamath**

According to Veteran banker K V Kamath on December 15, 2021, exhorted the banking industry to pitch for a level-playing field with technology-driven new age players, saying that the rise of technology has led to disruption in the financial services sector. According to the bankers, should make a case with the regulator for a level-playing field and the requirement of regulatory reporting should be extended to new age players. “We now have a digital mindset at all levels, there is the rise of technology and the bank customers are now receptive to change.

- **Banking sector set to witness significant reforms in the new year**

The banking sector is set to witness significant reforms in the coming year with privatization of public sector banks and strategic disinvestment of IDBI Bank on the agenda of the government for 2022. The emerging coronavirus situation, especially in the wake of the Omicron variant, might pose headwinds in the pace of reforms. Going by

the numbers, the banking sector has done reasonably well in 2021, notwithstanding the impact of the second wave of the pandemic.

- **HDFC Bank ties up with IPPB to deliver banking services in semi-urban, rural areas**

HDFC Bank has tied up with India Post Payments Bank (IPPB) to offer its banking services to the unbanked and underserved segments in semi-urban and rural areas. A memorandum of understanding was signed between HDFC Bank and IPPB to cater to the majority of over 4.7 crore customer base of IPPB. About 90 per cent of IPPB customers reside in rural areas, which may benefit from this tie-up.

- **New RBI rules in the making may allow neo banks, digital platforms to flourish and deepen inclusion**

The Reserve Bank of India (RBI) sprang into action and constituted a working group (WG) to study all aspects of digital lending, so that appropriate regulations can be put in place. We are a country of 1.25 billion with only about 35 to 40 million credit cards. Digital lenders can expand the credit base just like NBFCs did at one point in time. According to Anuj Kacker, Co-

Founder; Moneytap Unfortunately, a few bad apples have spoiled the party. But it has also brought a sector into the regulatory spotlight,” It is a credit platform that helps RBL Bank and HDB Financial among others to acquire customers.

Source: https://economictimes.indiatimes.com/news/economy/policy/new-rbi-rules-in-the-making-may-allow-neo-banks-digital-platforms-to-flourish-and-deepen-inclusion/articleshow/88556591.cms?utm_source=contentofinterest&utm_medium=text&utm_campaign=cppst

- **Bank NPAs ease to nearly six-year low: RBI Trends & Progress report**

Proving sceptics wrong, 2020-21 turned out to be the best in recent years for Indian banks in terms of their financial performance. The pandemic-hit financial year was marked by a “discernible increase” in profitability, as banks’ income remained stable but expenditure declined, the Reserve Bank of India (RBI) observed in the annual Trends & Progress Report. During the year, total income of banks remained stable, despite a marginal decline in the largest component – interest income – in an environment characterised by low credit offtake and interest rates.

TOP NBFC'S-MFI NEWS

- **Business gains momentum for leading NBFCs in November**

Leading non-banking finance companies have reported gaining traction with the bouncing back of the economy even as consumer demand is yet to recover to its potential. According to Mahindra & Mahindra Financial Services, loan disbursement rose 17% year-on-year to Rs 2,500 crore expecting the traction to continue in December. Shriram City Union Finance, a Chennai-based leading two-wheeler financier, disbursed Rs 1022 crore to finance 1.6 lakhs two-wheelers in November, its highest ever in a month.

- **Raise provisions for Omicron hit: Auditors to NBFCs**

Omicron, supposedly more infectious than earlier Covid variants, could put pressure on the financials of several non-banking finance companies (NBFC) as auditors seek higher loan provisions on asset quality concerns. Auditors have started asking NBFCs to increase provisioning in the third and fourth quarters, with provisions rising 5 per cent-15 per cent.

- **RBI retains three-member Advisory Committee of Reliance Capital**

A day after NCLT admitted RBI's petition for insolvency resolution of Reliance Capital, the central bank on Tuesday, December 14, 2021 said it has retained the three-member Advisory Committee to assist the newly appointed administrator of the crisis-ridden NBFC. The Mumbai bench of the National Company Law Tribunal (NCLT) on Monday admitted the Reserve Bank's plea to initiate insolvency resolution proceedings against Reliance Capital.

- **Bank-NBFC co-lending: how it works, and the concerns it raises**

Several banks have entered into co-lending 'master agreements' with NBFCs, and more are in the pipeline. This, however, has come in for criticism from several quarters. In September 2018, the RBI had announced "co-origination of loans" by banks and Non-Banking Financial Companies (NBFCs) for lending to the priority sector. According to RBI, "The arrangement entailed joint contribution of credit at the facility level by both the lenders as also sharing of risks and rewards".

- **NBFCs AUM likely to grow 8-10% in FY23: Crisil**

Non-banking financial companies' (NBFCs) asset under management (AUM) is likely to grow 8-10 per cent in the fiscal 2023, helped by improvement in economic activity and strengthened balance sheet buffers, according to a report by Crisil Ratings. The agency expects AUM growth to be at 6-8 per cent in fiscal 2022. The growth in the previous fiscal was 2 per cent.

- **RBI introduces tough PCA framework for large NBFCs, effective October 2022**

The Reserve Bank of India (RBI) on Tuesday, December 14, 2021 introduced a prompt corrective action (PCA) framework for large non-banking financial companies

(NBFCs), putting restrictions on para-banks whenever vital financial metrics dip below the prescribed threshold. This brings them almost on a par with banks in terms of supervision and regulatory reach. This follows the scale-based regulations and revision in non-performing asset (NPA) norms brought in by the regulator for the sector.

Source: https://www.business-standard.com/article/finance/rbi-introduces-tough-pca-framework-for-large-nbfc-effective-october-2022-121121400881_1.html

- **Tight regulations await top NBFCs looking for entry into banking**

The Reserve Bank of India (RBI) on November 26 accepted 21 out of 33 recommendations of an internal working group on the ownership guidelines and corporate structure of private sector banks. For non-banking financial companies (NBFCs) looking to convert into a universal bank, minimum requirement on the track record of the experience of promoting entity, including for a converting NBFC, may continue at ten years for universal banks. On the eligibility of promoters, the RBI said it may, as part of the framework for scale-based regulation of NBFCs, consider putting in place a tighter, bank-like regulatory framework for large NBFCs.

Source: <https://www.moneycontrol.com/news/business/tight-regulations-await-top-nbfc-looking-for-entry-into-banking-7769061.html>

- **RBI will rein in fragile NBFCs to avert busts**

Nearly two decades after introducing the prompt corrective action framework to

nurse wobbly banks back to health, the banking regulator on Tuesday, December 14, 2021, similar rules would soon apply to non-banking financial companies following several high-profile shadow lenders collapsing in recent years. New regulations seek to increase supervision of shadow lenders. The framework will cover all deposit-taking NBFCs, and middle, upper, and top non-deposit taking NBFCs.

- **Funding into NBFC-MFIs grow as the sector bounces back**

Funding into India's microfinance sector grew with institutional investors turning

bullish as the sector regained its stability since the outbreak of Covid-19 pandemic with higher loan disbursement as well as repayment collection from the borrowers. According to the Microfinance Institution's, Total equity for NBFC-MFIs rose by 12.2 per cent year-on-year to Rs 19,139 crore at the end of September,

Source: https://economictimes.indiatimes.com/industry/banking/finance/funding-into-nbfc-mfis-grow-as-the-sector-bounces-back/articleshow/88300062.cms?utm_source=contentofinterest&utm_medium=text&utm_campaign=cppst

- **Microfinance loan portfolio grows 5.16 pc to Rs 2.43 lakh crore as on September-end: Report**

The gross loan portfolio (GLP) of microfinance industry grew by 5.16 per cent to Rs 2.43 lakh crore as on September 30, 2021 from Rs 2.31 lakh crore in the year-ago period, according to a report by Microfinance Institutions Network (MFIN) on Wednesday. MFIN is an industry association comprising of 58 NBFC-MFIs and 39 associates including banks, small finance banks (SFBs) and NBFCs. The industry served 5.65 crore unique borrowers, through 10.52 crore loan accounts as of September-end.

- **Reserve Bank Turns Down NBFC Plea For Relaxing Asset Quality Norms**

The Reserve Bank of India has rejected a plea by the non-banking finance companies (NBFCs) to relax asset classification and provisioning norms. Finance Industry Development Council (FIDC), the NBFC lobby group, had approached the RBI to offer relaxation in the NPA norms, however, the central bank has declined to comply with the request.

Source: <https://news.abplive.com/business/reserve-bank-turns-down-nbfc-plea-for-relaxing-asset-quality-norms-1500287>

- **RBI rejects NBFCs’ plea to relax prudential asset quality norms**

The Reserve Bank of India (RBI) has turned down a plea by non-banking finance companies (NBFCs) for the easing of norms on income recognition, asset classification and provisioning. This will likely lead to a rise in bad loans at NBFCs. The central bank told the NBFC lobby group Finance Industry Development Council (FIDC) that it intends to impose uniform prudential asset quality norms on all lending institutions and the demand for leeway can’t be accepted.

Source: https://economictimes.indiatimes.com/industry/banking/finance/banking/rbi-rejects-nbfc-plea-to-relax-prudential-asset-quality-norms/articleshow/88329606.cms?utm_source=contentofinterest&utm_medium=text&utm_campaign=cppst

- **NBFC MFIs, SBFs, lead in fresh micro loan disbursements in Q2: CRIF Report**

CRIF Report NBFC MFI & Small finance banks lead I fresh micro loan disbursements in the July – September quarter, 2021. Driven by a 300% QoQ growth in fresh loans and disbursements by NBFC's and Small Finance Bank's, microfinance loan book recovered in the second quarter .

- **Corporate-promoted NBFCs can have 15% stake in banks, with increase in cap**

Corporate houses, which are not allowed to own a bank, can now pick up 15 per cent stake in commercial banks through their non-banking financial companies (NBFCs). This is because the Reserve Bank of India (RBI) has allowed non-promoters to hold up to 15 per cent in private sector banks, following the recommendation of an internal working group (IWG) that was set up to review the existing guidelines on ownership and corporate structure for these entities.

- **NBFC sector expected to remain buoyant, says RBI report**

Non-banking financial companies (NBFCs) are expected to remain buoyant going ahead, helped by the revival in the economy and increased pace of vaccinations, the Reserve Bank of India (RBI) said in its

Report on Trend and Progress of Banking in India 2020-21. According to the Report released on Tuesday, 27 December, the pandemic has tested the resilience of NBFCs, but so far, the sector has emerged stronger with reasonable balance sheet growth, increased credit intermediation, higher capital, lower delinquency ratio and enlarged liquidity cushions.

- **Don't get your hopes high, bond market development could be a mirage**

Fond hopes of bond market development arise every time issuances go up. But step out of easing and negative real interest rate cycles and look at the trend. This time may be no different. Corporate bond issues as a proportion of national income have ranged 3-3.5 percent of the GDP from the time since policy attention focused on developing this market to replace the closure of development finance institutions. Corporates shift from banks to bond financing whenever interest rates are ultra-low or negative as now. A rational response but never lasting enough to become a trend.

- **2021, the risk-taking investor's year: Demat accounts and NFO collections set new record**

From just 50 lakh demat accounts in 2019, we have 1.87 crore accounts as of October 2021, according to SEBI data. Clearly, there is a rush to invest in equities directly. Low-yield bonds were back in favour with smart investors. Many also invested in cryptocurrencies. Here are four key trends that shaped investments in India during 2021. The broader market recovery since March 2020 meant that mid-cap funds (45.97 percent return) and small-cap schemes (62.3 percent return) delivered returns than large-caps (26.63 percent). Those who took risks were rewarded.

- **India Inc raises over Rs 9 lakh crore through equity, debt issuances in 2021**

Indian companies have mopped up more than Rs 9 lakh crore through equity and debt routes in 2021 to meet their renewed thirst for business expansion in a buoyant stock market brimming with liquidity and helped by recovering macroeconomic indicators after pandemic-ravaged first few months. Unless the still-evolving Omicron situation plays spoilsport, the next year is expected to be much more robust in terms of fund-raising activities and there seems to be no dearth of funds.

Source: https://economictimes.indiatimes.com/markets/stocks/news/india-inc-raises-over-rs-9-lakh-crore-through-equity-debt-issuances-in-2021/articleshow/88502152.cms?utm_source=contentofinterest&utm_medium=text&utm_campaign=cppst

- **FPIs pump more money into Indian bonds than stocks**

This year marked the ‘coming the age’ for the average Indian Saver, with Nifty’s climb past Mount 18k dominating the airwaves and column inches. But what has gone virtually unnoticed is that overseas funds, which own the bulk of Indian equity assets, quietly bought more of local debt than stock in a year that shattered all records - of IPO proceeds, unicorn valuations or SIPs. Foreign funds bought bonds worth around \$4.5 billion under Voluntary Retention Route (VRR). By contrast, their net stock purchases amounted to \$3.9 billion this year, showed data from NSDL.
