

Empowering you to face the future with confidence.

## OUTSOURCED BUSINESS SERVICES: THE KEY TO REIMAGINING YOUR BUSINESS

In today's rapidly evolving landscape, businesses are adapting and reimagining their futures. Outsourcing non-core functions can be key to working smarter, allowing you to focus on your key business and strategic objectives.

Battling the effects of COVID-19 on your business means there has never been a better time to rethink your cost base and focus on your core functions, generating revenue and delivering excellent service to your clients. Outsourcing non-core functions like payroll, management accounts and interim resource planning can be an efficient and cost-effective way to create space for your team to concentrate on strategic objectives.

### How can RSM help?

The RSM Outsourcing team offer flexible and practical solutions with minimum fuss. We can help you meet all payroll and management accounting needs with the latest cloud accounting solutions that work. If the Government's TWSS or EWSS has impacted your business, we can ensure all claims are correctly processed. If you are rethinking your workforce, our team can also solve your interim resource problems with a range of bespoke solutions.

### 1. Interim resource solutions

The disruptive events of 2020 have forced many businesses to reconsider their workforce. Whether it's planning for short term hires, dealing with staff shortages or looking to minimise their workforce, our team can offer flexible support.

- Co-sourcing allows our clients to use our expertise to work directly with their internal teams in transferring knowledge over a specified time-period.
- Insourcing involves assigning RSM staff to complete an entire piece of work on site.
- Recruitment allows us to meet a client's need to fill a vacancy by finding the right match for their requirements.

### 2. Payroll

We deal with routine aspects needed to pay your employees and have up-to-date knowledge of all schemes and employee entitlements. Our payroll services are complemented by our Tax Department who can give specialist advice to employers and ensure your compliance with the Irish taxation system.

We can work with your company on a periodic basis (weekly, fortnightly, bi-monthly or monthly basis) and manage the entire payroll process. We work with the latest cloud accounting solutions so there's no need for you to spend time or money on software or maintaining expensive servers. All you need is a computer or smart device and you're ready to go – from anywhere.

### 3. Management accounting

The information you gain from management accounting can be priceless in assisting you to make meaningful decisions. However, employing an in-house, full-time management accountant might not suit your business right now.

We offer clients the choice of fully or partially outsourcing their management accounting function, tailored for their specific, and evolving needs. Our team can take care of:

- Transaction processing and bookkeeping
- Management accounts
- Bespoke reports
- Supplier payment

**A tailor-made service that's right for your business**

We recognise that every business has different needs depending on several factors, such as your employee numbers, where your company is in its maturity cycle and the impact of COVID-19 on your business.

Our Outsourced Business Services can be cherry-picked depending on your requirements. Whether you choose to avail of one or all of our services, fully outsource your payroll, management accounts and interim resource needs or simply supplement your existing in-house team, we adapt our support to meet your requirements.
