

THE POWER
OF BEING
UNDERSTOOD

RSM PUERTO RICO IS A W CERTIFIED COMPANY™ 2016!

17 June 2016

Today, Frances Ríos Communications formally announced the designation of **RSM** Puerto Rico as a **W Certified Company™ 2016**. In an awards ceremony held at the Puerto Rico Convention Center, **RSM** was recognized as a leader in matters related to the inclusion of women in the workplace. The recognition comes weeks after the firm's leading women (mainly Managers and Supervisors) completed a number of surveys and questionnaires aimed at gauging the firm's progressive posture towards women in areas such as talent identification and development, corporate responsibility, commitment to inclusion, flexibility, career advancement, and overall compensation and benefits.

Doris Barroso, **RSM** Managing Partner, signaled that *"it is with great enthusiasm that we at **RSM** celebrate our designation as a **W Certified Company™ 2016**. We proudly recognize women's vital and indispensable impact on our practice, our firm and our profession."* Barroso also noted that *"today, women comprise just over 50% of our professional team. We remain committed to facilitating an optimal work environment for all of our professionals, and treasure how such diversity affords our clients the opportunity to experience **The Power of Being Understood**."*
