

THE POWER
OF BEING
UNDERSTOOD

RSM PUERTO RICO IS (AGAIN) A W CERTIFIED COMPANY™

26 June 2017

For a second year in a row, Frances Ríos Communications formally announced the designation of **RSM** Puerto Rico as a **W Certified Company™ 2017**. In an awards ceremony held at the Club Náutico de San Juan, **RSM** was recognized as a leader in the inclusion of women in the workplace, spanning areas such as talent identification and development, corporate responsibility, commitment to inclusion, flexibility, career advancement, and overall compensation and benefits.

All female members of the firm's top management attended the event, led by Doris Barroso, **RSM** Managing Partner, who proudly emphasized "we at **RSM** again welcome our designation as a **W Certified Company™**, and celebrate the vital and indispensable impact of all women on our practice, our firm and our profession." Today, more than 50% of the **RSM** service team is comprised of women, and the firm has instituted a number of programs aimed at empowering women in areas such as networking, cross-selling and leadership.

At **RSM**, we remain committed to facilitating an optimal work environment for all of our professionals, and treasure how such diversity affords our clients the opportunity to experience **The Power of Being Understood**.
