CyberShield Academy

1. Who We Are

We deliver comprehensive cybersecurity solutions designed to help organizations build robust defences against ever-evolving threats. Our approach emphasizes education, preparedness, and policy standardization—helping you safeguard your digital assets while enhancing your team's security awareness.

Did You Know?

- 82% of data breaches involve a human element—such as errors, misuse, or social engineering tactics—according to the Verizon 2022 Data Breach Investigations Report.¹
- Organizations that implement regular cybersecurity awareness training can reduce phishing susceptibility by up to 75%, as shown in a study by KnowBe4.²
- A 2024 survey by Hornet security revealed that 78.5% of organizations believe IT security awareness training directly prevented cybersecurity incidents.³
- Research published in the ISACA Journal indicates that companies can achieve a return on investment (ROI) of up to 500% from implementing cybersecurity awareness programs—especially in large organizations.⁴

2. Our Core Services

We offer a centralized platform to elevate cybersecurity awareness across your organization. Our system tracks employee engagement and progress in key areas of IT security.
