

# DIGITAL TRANSFORMATION TO FOSTER RECOVERY POST COVID-19

*While COVID-19 has been wreaking unprecedented havoc onto societies and economies, it has also given us a glimpse into the future – one where digital has become central to every interaction, whether it is social or commercial*

## Transformation

Digital transformation is a key enabler to facilitate home-based work, remote learning and home supply delivery

## Three pillars

- **Digital Government** improves efficiency and operational efficiency
- **Digital Economy** improves the competitiveness of the economy
- **E-Society** addresses Vietnam's 'digital gap', or the unequal access to the internet and the use of online services

## Impacts

- **Stimulating post-pandemic recovery** through infrastructure investment
- **Seizing opportunities** to develop digital economy
- **Facilitating access to digital economy**, narrowing the digital divide
